What is Bartab? Bartab is an exciting and fun new iPhone and Android app that lets you send and receive drinks, meals and more to your friends with a simple few clicks on your smartphone.

The Instant Birthday Present: Facebook messages may be fast and free, but nothing shouts Happy Birthday louder than a glass of champagne, a classic cocktail, or a pint. With Bartab you can instantly buy a friend a drink in one of our participating pubs or bars from wherever you are.

Late for a Date: Running late for a date, a big night out, or even an important meeting? Send a drink ahead to keep everyone happy.

Start the Party: Want to rock the venue you're already in? Send out drinks to your friends to get them over and start the party in earnest.

Our customers will not incur charges to buy and send drinks using Bartab.

Sign up to our database via our pub websites to become a 'friend' and we can use Bartab to send you free drinks!
